**T**ugboats are known for their incredible strength and reliable nature. Most barges depend on tug boats to guide their path and lead them to their destination safely. When faced with challenges such as a heavy load to pull or formidable obstacles, tugboats rely on their strong build to help them maneuver to safety.

The South Carolina Retirement Systems seeks to provide reliable and safe retirement plans for its members. SCRS is the oldest of the five plans and has been in existence for 64 years. The Retirement Systems is not only providing for today's retirees, but for future generations of retirees as well.

### Financial Trends Information

*Financial Trends Information* is intended to assist users in understanding and assessing how the Systems' financial position has changed over time. The ten year summary of plan net assets and ten year schedules of changes in plan net assets as well as the additions by source, deductions by type, and benefit expenses by type for the last ten fiscal years may be considered useful in determining financial trends.

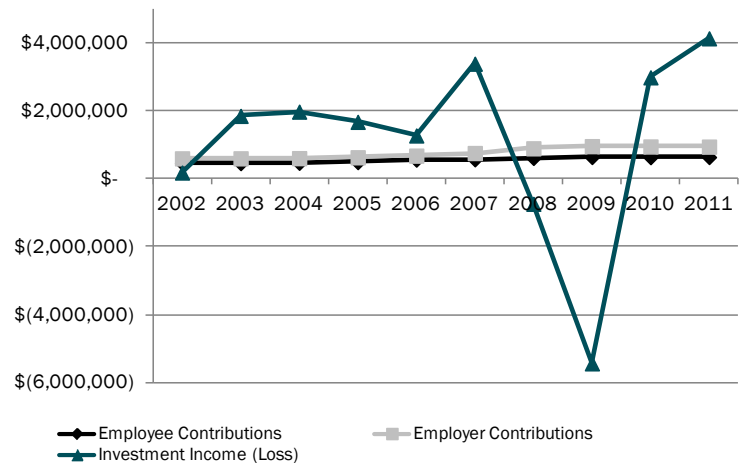

#### Trend of Total Net Assets

A trend of the total value of plan net assets over the past ten years reflects an overall increase for the period; however, negative investment returns realized during fiscal year 2008 and 2009 caused a significant decline in asset values for the portfolio. Positive investment returns during fiscal year 2011 resulted in an increase in the value of plan net assets of \$3.2 billion from the prior fiscal year.

#### Trend of Total Pension Trust Funds Additions by Source

The overall trend in the dollar amount of employee and employer contributions has gradually increased due to increases in contribution rates and growth in covered payroll; however, employee and employer contributions decreased at several points due to slight declines in the number of active members. During fiscal year 2011, the total dollar amount of employee contributions increased from the prior fiscal year as a result of a significant increase in the amount of employee contributions received for purchased service. Investment income is much more volatile due to its dependence on the market.

#### Trend of Total Pension Trust Funds Deductions by Type

A rise in the number of annuitant payees and cost of living adjustments granted to annuitants resulted in a steady increase in benefit expenses over the years. Refund expenses spiked during fiscal year 2006 as a result of a negative ruling on litigation in which contributions were required to be refunded to retired participants in the Teacher and Employee Retention Incentive (TERI) program. In addition, a slight growth in death benefit claims occurred over the past couple of years because beneficiaries of working retirees now receive an increased level of incidental death benefits.

### *Operating Information*

*Operating Information* is intended to provide contextual information about the Systems' operations and resources to assist readers in using financial statement information to comprehend and evaluate the Systems' fiscal state. Schedules containing operating information include retired members by type of benefit and retired members by years of service, and principal participating employers for the current fiscal year and 10 years prior.

Although retirement types include service, disability and beneficiary payees, members retiring at normal retirement based on age and service represent the majority of the systems' annuitant payees. Various payment options are available at retirement; however, the majority of members elect to receive benefits under the maximum benefit level.

Effective January 1, 2001, normal service retirement eligibility was reduced from 30 to 28 years for the South Carolina Retirement System. This resulted in an unusually large number of members being eligible for and electing retirement, and a corresponding reduction in the years of service trend was experienced.

The number of covered employees working for certain participating governmental entities declined due to a number of factors. Eligibility in the State ORP was broadened significantly on July 1, 2002, to a wider variety of the public workforce and resulted in additional participants choosing this option instead of the defined benefit plans. In addition, the continuing economic decline has led to a reduction in hiring and an increase in terminations and retirement incentives. Also, the implementation of TERI and more liberal return-to-work policies under SCRS and PORS has led to more retired members filling positions that were previously performed by active employees.

### ***Revenue Capacity Information***

*Revenue Capacity Information* is intended to assist users in realizing and reviewing the factors that affect the Systems' ability to generate revenues. Employee and employer contribution rates for the most recent ten fiscal years are presented to aid in this category.

Over the past several years, the South Carolina General Assembly took several actions that resulted in the funding of not only a 1 percent automatic annual COLA for SCRS retirees effective July 1, 2005, and an additional 1 percent automatic annual COLA for SCRS retirees and a 2 percent automatic annual COLA for PORS retirees effective July 1, 2008. The 2 percent automatic annual COLAs in both SCRS and PORS are limited to the annual increase in Consumer Price Index for Wage Earners and Clerical Workers (CPI-W) and were funded using increased employee and employer contributions as well as extensive diversification of the trust fund's investment portfolio, which was intended to achieve superior investment returns (at an assumed 8 percent rate of return). The PORS automatic COLA was additionally funded through increasing the unfunded liability amortization period to 29.9 years from 16.3 years.

<sup>1</sup>Employer contributions for the General Assembly Retirement System (GARS) are paid as an annual lump-sum appropriation, in which death benefit contributions are included. Employer contributions for the National Guard Retirement System (NGRS) are paid through an annual State appropriation.

<sup>2</sup>For employers with retiree insurance coverage, an additional retiree health insurance surcharge is collected by the Retirement Systems and remitted to the Employee Insurance Program; however, these rates are not considered employer retirement contributions and therefore are not included in this schedule.

### ***Demographic and Economic Information***

*Demographic and Economic Information* is intended to assist users in evaluating the socioeconomic environment within which the Systems operate and to provide information that facilitates comparisons of financial statement information over time and among pension plans. Active and retired member data for the past ten fiscal years can be found in the Actuarial Section on Pages 124 -126 and 132 - 134.

A list of the number of employers currently participating in the SCRS and PORS systems is presented in this section. State agencies, institutions of higher education, and public school districts are covered by Statute. The list of participating employers includes a directory of employers covered by separate agreement.
